RPX

RIPPER TOOTH

Made in Italy

FOR MINI, MIDI, BACKHOE AND EXCAVATORS

Tooth ripper "RPX". The ideal choice for ripping hard ground, rocks, shale, hard clay and permafrost and any ground condition where normal bucket penetration is difficult, also used in construction along with other digging machines to prepare wells, canals and foundation trenches. Made of heavy-duty abrasion resistant steel 400HB, 450 HB and 400 HB. The wide range of models allows the perfect match for every excavator from 1,2 to 38 ton, providing the best performance for each specific class and application.
